## Village News:

Probably repeating myself, but summer is becoming more intolerable with each passing year. No matter whom you meet or what the topic of conversation, it always leads around to the heat and what we can do to avoid it. So we dress appropriately and look for the nearest AC or head for the pool. To add salt to our wounds, the meteorologists now say the 'nice' weather is going to finish as temperatures begin to climb!

**Mazal Tov to Shosh & Raymond Solomon** who celebrated their golden (50) anniversary. All the children, included husbands, wives and grandkids, gathered for the party and vowed to be in attendance at the 100<sup>th</sup> too!

**Mazal Tov to Udi Wagner** celebrated his 60<sup>th</sup> birthday in the pool area with a musical evening organized by his children. There too all branches of the Raines family were represented. The Steiner's, who live right next to the pool, didn't even have to leave home to attend a concert! Hmmm, maybe the assessor will add a cultural value to their house??

Also with the Raines clan: **Rachel & Ilan** quietly celebrated their daughter **Nirit's** receipt of the rank of Captain and a new, challenging job. I may be wrong, and archivist Yitzhak Eden can correct me if I am, but this is the first time a KH girl/woman has achieved this rank... Rachel and Ilan have learned to stand at attention when Nirit commands. They now will have 3 officers around the dining table when all the kids are present.

Well, now that we've mentioned **Rachel Ginat** (who is learning to archive) and **Yitzhak Eder** we can give some news from the branch: turns out some nice people from Harvard University are interested in preserving all our amassed materials and are helping to have them scanned and for digital media. The scanning of the various diaries and albums that have accrued over the years is almost complete. There is still a tremendous amount of material that has not been scanned. At the moment the team is working on a way to scan all former issues of Divrei HaKfar and other materials. In the future, even if we're not here, everyone will be able to see who we were and what we did.

**Mazal Tov too to Elana & Meir Valler**, and all the extended family, on the birth of their 4<sup>th</sup> grandchild, a great-grandson to **Renee Cohen**, son to **Coby & Julie**.

**Mazal Tov** to **Ruti & Gadi Amit** on the wedding of son **Nadav to Gil Shaham** in Mikve Yisrael. Yotam, their eldest, also arrived for the event, and everyone celebrated until dawn. What stole the show was a duet of the song "Strange Dance of the Heart" sung by daughter Mali & Gadi. Where was Zvika Harar and his team for 'A Star is Born'? The happy couple will have a reception here 17/07 and, with a little pressure, we'll get to hear the program.

The same evening (2/07) **Efrat Eden** also celebrated her wedding to **Yoram Spitzer** and has a ready made family. So **Mazal Tov** to them and all their clan (Edelstein) too for the happy event.

August, which is fast approaching, will bring us three more weddings: **Nirit Ginat**, **Niv Maayan** and **Yagil Oren**. **Mazal Tov** to them all, prepare your checkbooks, and we look forward to hearing about the events.

See a red headed mane in the pool area? That's our **Adi Lynton** who has finished the cross country trek and is resting up and taking it easy. Now 'real life' begins and we wait to hear what her plans are. Anyone who hears about an interesting, well paying job please tell her.

The children are all acclimatizing to the summer holidays and the various activities. The middle and high schoolers get together a lot for hi calorie meetings (tasty too, we hear). This week then went south (to the lake) for some water activities. The older grade schoolers had their traditional up-side-down-day (which in recent years has had the very uncivil name 'Murderous Night' added to it). Thanks to all who helped organize the activities. This week they will visit 'Superland' on the beaches of Rishon Letzion - organized by the regional council.

**Zivia (Potash) Brody** and son, **Alon**, have arrived for month. They join daughter **Shani** arrived 2 weeks ago and will remain 'till almost the end of summer. **Orly Arnold** is here with daughters, **Teva** and **Kaye**, and will celebrate **Teva's Bat-Mitzva** too. **Grandma Taube Wolff** is also here to celebrate with them. **Sasoon Marcuson** and his 3 children are also here from Sweden and will soak up some color poolside.

**Liat Epstein** is already off to the **Creativity for Peace Camp** in New Mexico, but this time as a counselor. Good Luck! **Yuval Dadush** is joining **Clil** and other classmates, for a short holiday in Greece. **Yotam Amit**, who was here for his brother's wedding, is also off home to Dallas, TX, after visiting his family.

**Michal Dadush** has just finished the subject of the 1<sup>st</sup> settlers with the Rimon kindergarten children and celebrated with a hike down to Monsura, and cookout, including parents and siblings.

**Nitai Koren** and **Golan Rosenkrantz** has gone to Vered HaGalil to volunteer to work with the horses, where they will also learn them and receive riding lessons. **Ben Lifshitz** is already ensconced there in a more vocational capacity. If you have reason to go to Vered HaGalil, or take visitors for a pony ride, you may well see them there, or have them serve you - tipping appreciated.

Hmmm....maybe someone will look into this business of finding suitable work for the kids after school?

The **Kabbalat Shabbat** poolside, being handled by **Gabai Rafi Frank**, **Chazan Giora Goodman**, and **Rav Dudu Palma** and **Womans Auxiliary, Ari Steiner**, is getting a big turnout. People hang around for supper on the lawn and basically enjoy having company and enjoy the ceremony and tasty challah that Ari bakes. No entry fee required. This week there will also be dancing in the pub afterwards.

Saturday evening 11/07, there will be a memorial service for Henry Ben-Yehuda in the new club room. Hour will be psoted on the notices boards. There will also be an exhibition of Henry Z"L's paintings in the dining room.

That's allfor this week and we wish you a pleaseant Shabbos!

The Rosenkrantz family
